PROFILE

I am a Full Stack Web Developer, with a background in Web design. Much of my time is spent coding and learning new languages and technologies. I am passionate about solving problems and have the ability to balance many projects at once, while staying organized. Utilizing my skills in planning and pseudo coding, I form ideal strategies towards project completion, and I continue to produce satisfactory results.

TOOLS + LIBRARIES

HTML	Node.js
CSS	Handlebars.js
JavaScript	MERN
Bootstrap	ORM
JQuery	OOP
Figma	PWAs
Bulma	Express.js
Git	NoSQL
GitHub	React
Moment.js	SQL

PROJECTS

MusicBox | JavaScript, Bulma, Figma

- This app allows the user to search for song lyrics and provides a meme of the artist in the search results. The song title and artist name will then be saved on the "Your Favorites" page.
- I styled the homepage for this app, created the "About" modal, and connected the API for the lyrics.

   Repo: https://github.com/chloeyarb/Music-Box
   Deployed: https://chloeyarb.github.io/Music-Box/

Run Buddy | HTML, CSS

- This app displays a template for a fitness website.
- I created this mobile responsive app with a sticky header, a hero section that includes a form to request a consultation, and the footer includes an embedded google map next to the contact form.

   Repo: https://github.com/NicoleBarranca/run-buddy
   Deployed: https://nicolebarranca.github.io/run-buddy/

Everything Cal | JavaScript, Moment.js

- This app is a daily planner that allows the user to input and save tasks or important dates for each hour of the workday.
- This app will display the current date and the top of the page, and past, present and future hours are color coded for a visual representation of the task's urgency.

WORK EXPERIENCE

WEBSITE DESIGNER
2019-2021
Matawan, NJ

Practical Website Design

Created dōTERRA certified websites for new clients, and updated existing sites using Strikingly. Kept in contact with clients regarding their business, discussed and implemented updates that would improve customer experience. Designed and deployed three monthly blogs via PWD's blog writing service using Updated client's websites with the latest dōTERRA promotions.
